Edpuzzle login for students

i am a student. How do I leave class? If you are in the wrong class or want to leave a class that is no longer active, you should ask the teacher of that particular class to help you in this case. You can share these articles for instructions on how to help them with them: How do I change my username or password? If you want to change your username or password, you can do so on the Settings tab. Find this page and change the details using these steps: click on your profile icon in the top right corner. Choose your name from the dropdown menu. Next, click Settings. Here you can change your username or reset your password. Click Save changes when you are finished. Note: You cannot change your username and/or password in the Edpuzzle app. You need to use an Internet browser in order to continue. If you have forgotten your username or password, then you should ask your teacher to find their username or reset your password for you. Here's the link to an article explaining how they can do it: How do I change a student's password or name? I forgot my username. If you don't remember your username, you should ask your teacher to find it for you. You can share this article with them explaining how to find usernames: How do I change a student's password or name? For more information, check out our article on how to change your password while it's signed in to your account. I forgot or need to reset my password. If you don't remember your password, you should ask your teacher to reset it for you. You can share this article with them which has instructions on resetting a student's password: How do I change a student's password or name? You may also be interested in our article on how to change your password while entered into your account. How do I download the Edpuzzle app for my smartphone or tablet? Do you want to use Edpuzzle on your phone or tablet? We have amazing iOS and Android apps that are incredibly easy to use! The app allows you to watch Edpuzzle videos anywhere, a time - even if you don't have a computer! Click on the links below to download them: How to use the Edpuzzle app for students when you download the Edpuzzle app for students, it's easy to log in and watch your video assignments! Open the app on your smartphone or tablet and you'll be asked to sign in, sign up or enter your open class code. To sign in, enter your Edpuzzle username and password or sign in with your Google Account. To register with Edpuzzle, enter the class code your teacher has given you, fill out your name and select the username and password. Alternatively, you can sign up with Google. to enter an open class code, Type in the code your teacher has given you and will be taken directly to your class. Once you sign in, you'll see your class list under my classes. To add a class, tap + add class at the bottom of the screen and enter your class code. To complete a assignment, tap Class, tap the video lesson you need Watch and then tap the play button to get started! If you can't find a specific task, make sure to check all three tabs: Due, No due date and Completed. To exit the app, tap profile in the bottom menu bar, and then tap Log out. Note: If you are using Edpuzzle via an LMS app (Boom, Schoology, Moodle, etc.), you still need to download the Edpuzzle app. When you go to an Edpuzzle assignment in your LMS program, you will be redirected to open the Edpuzzle app to complete the assignment. When finished, you can return to your LMS. If you have problems using the app, report it to your teacher and take them with us support@edpuzzle.com. I am a student, but I am enrolled as a teacher, and the teacher's account cannot be converted into a student account. Instead, click on your profile icon in the top right corner and then log in, or go to and then register as a student. If you need more help, check out our article on how to sign up for Edpuzzle as a student. If you already have an Edpuzzle account, the login is incredibly simple! Follow these steps: Click the sign-in button at the top of the home screen. I am a student to choose from. Then you have two options: sign in with Google or sign in with Edpuzzle by entering your username and password. Select the option you used to sign up for your account, enter the required information and all of you are set up! Note: If your teacher is using Google Classroom, then you'll need to sign in with the Sign in with Google button and use the same email as your Google Classroom account. You may also be interested in our article on how to create an Edpuzzle account as a student. You can connect your Edpuzzle account to your Google Account and Google Classroom in two ways: Connect your Google Account when you sign up from the home screen, click the sign-in button while it's signed in to your Google Account. Choose Register as a teacher or Register as a student accordingly. Click the Sign up button with Google and select your Google Account when you're aroused. Now your new account is automatically connected to Google! You will be able to use the sign-in button with Google for added privacy and security. Connect your Google Account from settings to sign in to your Edpuzzle account with your email and password. Click the circle icon in the top right corner and click your name in the drop-down menu. Click the Account tab and go to the section labeled Connected Accounts. Click Connect and select the same Gmail address you use for your Google class. With Google and Google Classroom Integration, you can: Troubleshoot Google classroom integration here are some common issues that you may encounter with useful articles on how to fix them: Note: Your account email and your Google connected email can be different! If you want to make the most of any video using Edpuzzle, you need to create an account. There are two easy ways to sign Depending on whether you use Google Sign-in or a username or email with a password. Sign up with Google on the blue sign-up button at the top right of the home screen and select the option I'm a student of. Select Sign in with Google. To sign up for Google, simply click the button and sign in automatically! If your teacher has a class code, you must enter it before creating your account. Note: If you have more than one Google Account and the account you're currently signed in to is not the same as your teacher's Google Classroom account, you'll be asked to select or sign in to your correct Google Account. Register with class code on the blue sign-up button at the top right of the home screen and select the option I am a student. Choose sign up with Edpuzzle. Enter the class code provided by your teacher. Fill in your name, username and password, then click Join Class and you're all set up! If you already have an Edpuzzle account and need some more help, you can check out our article on how to log in as a student. With open classes, your students are not required to have an Edpuzzle account, meaning they don't need to create a username or password. For more information, check out our article on how open classes work. On the other hand, if you want to record the progress of your students in a assignment, then students should have an Edpuzzle account. However, if you simply share your content with a colleague or don't need to record their grades, then the person you send the link to doesn't need an account. To track their students' progress in video assignment, they need an Edpuzzle account. Once they complete assignments through your account, you'll be able to see if they have watched the video, your quiz response and more. See an article on how to invite new students for instructions on how to add students to their Edpuzzle class. If you don't have to track progress, you can share a link to your video that anyone can access, even without an account. You can do this by opening the video and clicking on the sharing preview. From here, you can share a direct link to the video or embed the assignment on a site. When someone opens a preview link, they can watch the whole video and see questions, but their progress and scores won't be recorded. English (United States) English (Europe) English (ES) Contact us
